LIFE STYLE 3

A Remedy for the 21st Century

MindHeal Homoeopathy is a multi-specialty clinic, which is located in Chembur Mumbai. The medical experts from the multispecialty clinic view the human being as a whole and not as the sum of his/ her symptoms. "We therefore consider the individual's temperament, personality, attitudes - basic constitutional nature - along with his or her symptoms. Hence, it is not only the diabetes, hypertension, heart disease or allergy per se that we address but the patient who experiences these diseases," says Dr Anita Salunkhe.

While doing so, MindHeal relates symptoms to their root cause - the patient's genetic expression and biochemical imbalances. Our remedies strengthen the body's immune system and reactivate its natural healing processes to reverse all types of disease, both acute and chronic. With your, biochemistry and temperament now in an optimal state of balance, your 'Internal Doctor' makes sure you're always healthy and energised.

MindHeal Homoeopathy

thus uses a truly mind-body approach to healing. Not only do they cure patients of their physical ailments; their remedies also transform your perceptions and even your outlook to life. That's more than 25,000 patients annually - and still counting.

It is a unique and new-age approach to what ails you, founded by Dr Anita Salunkhe. A veteran homoeopath of 21 years, Dr Salunkhe is an MD in Homoeopathy. A doctor without borders, she delivers lectures, conducts seminars and consults with patients across the globe, including the US, Germany, the Netherlands, Belgium, Bulgaria, Brazil, Russia and Israel.
