

Patient's Name:
Latif Ansari

Founded by: **Dr Anita Salunkhe, MD**

Aliments Cured

- Schizophrenia
- Depression
- Insomnia
- Drug addiction
- Mental disorder

Duration of Treatment

8 months (Aug 27, 2002 - April 15, 2003)

Highlights

When 22 -year-old Latif Ansari came to **MindHeal Homeopathy**, he was a fractured personality. He had been diagnosed as suffering from schizophrenia, which is accompanied by serious disturbances in thought and personality. Latif had been treated by various psychiatrists for six years and had undergone shock therapy. He was also on strong medication - no less than 18 tablets a day.

Aug 27, 2002

But none of it seemed to help. Restless and unable to sleep, Latif would badger his mother for money, roam the streets day and night, loiter and indulge in abusive, destructive and violent behaviour.

He was also given to compulsive behaviour, sometimes composing and reciting couplets all day long; at other times, preoccupied with sexual fantasies for hours on end.

Latif's behaviour worsened after he was jilted by a young woman. He was crazy about her but, a year after they met, she left him for

someone else. Latif tried hard to win her affections back and to prove his love, he carved her name in blood on his arm. He once even threatened to jump from the terrace just to 'prove his love'.

Aug 27, 2002

Their break-up was a breaking point for Latif, whose personality disturbance worsened. He also fell into bad company and did odd jobs for a local gang, who gave him a little money in return. He also got hooked to drugs.

Latif says that after his girlfriend left him, he developed an intense hatred towards women. He would also turn violent for no apparent reason and sometimes talk gibberish.

When he flew off the handle, he would throw things, thrash his mother, talk about sex, and seize a knife and try to slash himself. This prompted his parents to repeatedly admit him to hospital for shock therapy.

Latif would also grow very disoriented. He once even travelled to

Oct 4, 2002

Matheran, a hill station on the outskirts of Mumbai, without so much as telling anyone. He was found by the police six days later. When he was brought back home, he failed to recognise

even his family.

Treatment

Latif showed definite signs of improvement 3 months after treatment began. He calmed down considerably and his violent bouts ceased.

April 15, 2003

Latif said he was not easily provoked and his anger was well within his control. His obsessive-compulsive behaviour too disappeared. "I have stopped composing shayaris," said the young man.

On the physical level, he felt rested and he was

sleeping well. His appetite too improved and he put on weight.

On the social level, Latif Said he was no thinking of earning a living and was toying with the idea of taking a tailoring course. Needless to say, his fantasy of becoming a 'gangster' also disappeared.

But the real testament to **MindHeal Homeopathy's** success was when Latif said, "Now people can tell from merely looking at me that I have become calmer."

April 15, 2003

MindHeal Homeopathy is based in Chembur, Mumbai. To find out more about **The MindHeal Way**, call: 022-25230530 / +91-9930363981. Or write to crm@mindheal.org. Website: www.mindheal.org. or log into www.mindhealhomeoclinic.blogspot.com. We'll be happy to answer all your queries.
