

22-year old obese girl loses 25 kilos in 5 months at MindHeal Homeopathy

A 22-year old girl weighing 87 kgs approached MindHeal Homeopathy seeking help for her obesity. Despite exercising in gyms and undergoing slimming treatments, she did not notice any significant weight loss. She was a hypochondriac person who was conscious about her looks. Her reports ruled out any possibility of Hypothyroidism or PCOD.

Through our analysis of her case, we came to know that the girl's parents had separated in her childhood; so she was raised by her aunt. But when she was 15, her mother returned to take her away while her aunt disallowed that. In this tussle, the girl feared losing her identity and went into a state of depression. She put on weight possibly during this period.

With the appropriate homeopathic medicines prescribed by Consulting Homeopath of MindHeal Homeopathy, first the girl's depression was cured. She became more confident and her self-consciousness faded away. And the best part – she lost **25 kgs in just 5 months** of her treatment with MindHeal Homeopathy.
