

55-year old woman gets relief from Osteoporosis at MindHeal Homeopathy

A 55-year old woman with a plump body came to MindHeal Homeopathy for osteoporosis treatment. In spite of having a diet rich in calcium and taking supplements, her condition was not improving substantially.

Through a complete case analysis, we found out that she was always worried about her family's financial condition. To make matters worse, her husband had lost his job and her sons moved away from home. All these incidents added to her tensions. Also, she was disappointed as she was expecting emotional support from her sons. It was possibly during this phase of her life that she contracted osteoporosis. Her metabolism was affected, due to which her body's calcium absorbing capacity declined resulting in osteoporosis. Hence, despite taking calcium-rich diet and supplements, her calcium count did not show substantial increase.

With the appropriate homeopathic medicines prescribed by the Doctor at MindHeal Homeopathy, her metabolism improved and her body-system started responding positively to the calcium taken. Thus, her calcium count increased remarkably and her osteoporosis disappeared within a few months of treatment with MindHeal Homeopathy
