

Young boy gets freed of his Psychiatric Disease at MindHeal Homeopathy

A boy in his late teens was brought to MindHeal Homeopathy for curing his psychiatric disorder. He was violent and aggressive by nature. Despite being given 11 shocks and 16 tablets a day for 7 consecutive years, there was no significant improvement in his condition.

By studying his case in depth, it came to our knowledge that he was once a normal and well-behaved boy. In his college days, he fell in love with a girl who jilted him because she did not consider him capable of achieving anything in life. His parents too called him a loser and rebuked him. To prove himself, the boy decided to make a quick buck; hence, he dropped out of college and joined a gang. He even started trading and consuming drugs. His parents continued scolding, rebuking and beating him, without attempting to understand his mindset. His mental condition worsened and he became violent, aggressive as well as insomniac.

The consulting homeopath at MindHeal Homeopathy prescribed him the appropriate homeopathic medicine based upon his case details. Within a few days, his destructive nature was reversed back and the imbalance in the level of neuro-transmitters in his brain was normalized. He is cured and has not taken any medicine meant for anti-psychiatric disorders since the past 4 years. With the transformation in his mind, his looks too have improved. He has rejoined college and is now doing well in all aspects of life.
